ABOUT ME

I am a creative, hardworking, insightful developer with a thirst for knowledge and a drive to create robust, elegant, and functional solutions for clients. I work best in a fast-paced, agile environment where I can directly give and receive feedback for real-time results on my work.

EXPERIENCE

Full Stack Web Development @Thinkful

Nov 2018 - Present

<https://github.com/aleckan53>

Designed, developed and deployed mobile-first full-stack web apps using React, NodeJS / Express, PostgreSQL with focus on responsive layout. Got experience working in TDD using Enzyme, Jest, Mocha, Chai, Supertest.

Projects:

Teamapp - collaboration platform [/teamapp-client](#)

Designed, created a responsive UI using React and CSS modules. The server-side app built with Node.js / Express. Real time updates work through Node Server Sent Events (SSE). Implemented a dark theme feature using React Context API.

React, NodeJS, Express, PostgreSQL, Knex.js, Heroku, Zeit

Bedtime Kids Stories [/bedtime-client](#)

Conceptualized, designed, built a web application for reading and publishing kids stories, that's easy to use. Animations made with standard CSS properties.

React, Express, NodeJS, PostgreSQL, Knex.js, AWS S3, QuillJS

ParkAdvisor web app [/park-advisor](#)

Single page application that displays information users need when traveling. The data is fetched from Google and NPS apis.

HTML, CSS, JQuery

Technologies and Operations Supervisor

Dec 2016 - Sep 2018

Royal Moving Co

<https://royalmovingco.com/>

Improved and maintained a web app that automates sales reports, fleet tracking, customers database, paperless contracts handling.

Created, designed, maintained a new website using WordPress.

Worked in a small and self-starting environment with limited resources and backup, creating and maintaining our own processes as we go.

Videographer / Video-editor

Feb 2010 - Oct 2016

Khan Media LLC

<https://vimeo.com/aleckan>

Contributed to the production of over 100 projects (commercials, music videos, tv-shows) while closely aligning with clients expectations.

Trained 20 people to operate with various shooting gear (steadicam, crane, drone) and shared video editing best practices as speaker at videography workshop.
